## Merlin C201™ Wireless Modem Manager for Windows 98SE and ME

### 1. Install the Wireless Modem Manager Software

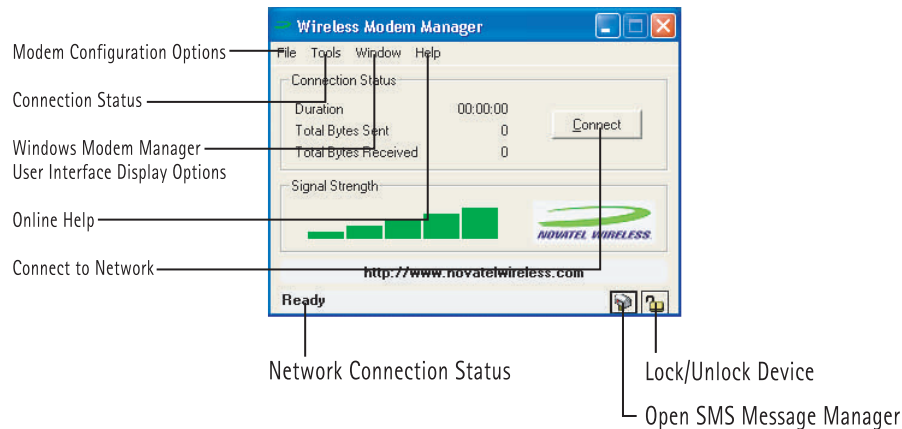

- Insert the MobiLink Software CD into your computer. If the setup program does not launch automatically double click the autorun.exe program on the CD.
- Select the Windows 98SE and ME link and follow the on-screen prompts. You will be asked to re-boot the computer and the Wireless Modem Manager icon will be placed on the desktop.

### 2. Insert the Merlin C201 into your PC

### 3. Launch Wireless Modem Manager

- Double-click the Wireless Modem Manager icon to launch the application.

\*CDMA and SMS are subscription services and must be enabled by your service provider.  
For technical support, contact your service provider.
