4G LTE Intelligent Mobile Hotspot

■ Next generation award-winning MiFi product line

The 4G LTE MiFi 4510 is the next generation of the Novatel Wireless MiFi Intelligent Mobile Hotspot portfolio, building on award winning innovation and design, proven performance and industry-leading flexibility, convenience and reliability. Experience life in the fast lane with blazing fast 4G LTE mobile broadband. The reliable MiFi 4510 is backward compatible with the 3G CDMA 1X-EvDO Rev A network and includes new features, such as integrated status display on the device showing battery life, roaming and connectivity information.

■ Connect up to 5 Wi-Fi enabled devices securely†

Create your own personal Wi-Fi cloud, capable of sharing high-speed 4G and 3G mobile broadband Internet connectivity with up to 5 Wi-Fi enabled devices simultaneously. The MiFi 4510 supports the latest security requirements that some of the strictest corporate VPNs require, including VPN Pass-through and SPI Firewall.

■ Best-in-class device features, without compromising battery performance

The simple service status LED scheme takes out the guesswork and the integrated status display provides at-a-glance device status information that does not feed off the device's battery power, unlike devices with LCD screens.

■ Easily fits in the palm of your hand

Sleek and compact, the MiFi is perfect for on-the-go connectivity that won't weigh you down.

■ Simple, one-touch Connectivity

Simple to configure and easy to use - no software to install!

■ GPS-capable
