

# Merlin U530™ Quick Start Guide

Detailed installation and setup instructions are in the **Merlin for UMTS Startup Guide** on the Merlin Software CD.

## 1. Insert the SIM card into the modem\*

- SIM card contact points must face upwards, and the orientation notch must be positioned as shown in the picture.

## 2. Install the MobiLink™ software

- Insert the Merlin Software CD into your computer. If the setup program does not launch automatically, open the autorun.exe program on the CD.
- Select the appropriate links and follow the on-screen prompts. The MobiLink™ icon is placed on the desktop.

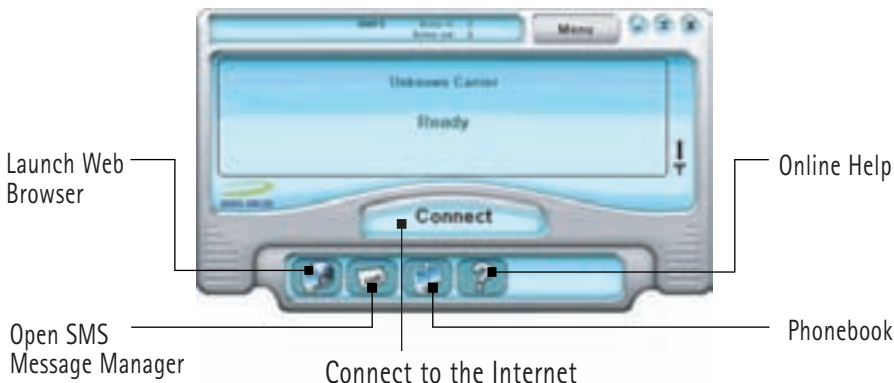

## 3. Insert the Merlin U530™ into your PC when requested by MobiLink™ to complete the software setup

- Wait for Windows® to detect your modem.

## 4. Launch MobiLink™

- Double-click the MobiLink™ icon. The first time you run MobiLink™ the software setup wizard will launch and prompt you for some modem settings.
- Click the 'Menu' button, then 'Configuration'.

## 5. Using MobiLink™

\*UMTS, GPRS, and SMS are subscription services and must be enabled on the SIM card.  
For Technical Support, contact your service provider or the supplier of your SIM.
