

# MiFi® 2200

## Technical Specifications

### Technology/Bands

- CDMA Mode: 1xEV-DO Rev. A/0; 1xRTT
- CDMA Bands: 800, 1900 MHz
- Wi-Fi Mode: 802.11 b/g
- GPS

### Data Speeds

- EV-DO Rev.A - Up to 3.1 Mbps download
- EV-DO Rev.A - Up to 1.8 Mbps upload

### Dimensions

- 89 mm x 59 mm x 9 mm  
(3.50" x 2.32" x 0.35")

### Weight

- 59 g ( 2.08 oz)

### WLAN

- 802.11b/g 2.4 GHz
- Pre-configurable security  
(WEP/WPA/WPA2)
- DHCP server
- NAT/NAPT
- DNS support
- VPN pass-through

### Battery

- Removable Li-ion battery
- Talk time: 4 hours
- Standby: 40 hours

### Interface

- microUSB port

### Antenna

- Integrated dual mobile broadband antennas
- Integrated Wi-Fi antenna
- Integrated GPS antenna

### Operating Systems Supported

- Windows® 7, Vista, XP
- Mac OS® X 10.3.9 or higher
- Linux®

### System Requirements

- Type A USB Port
- Internet browser software

### Security

- CDMA authentication and identification
- Dynamic MIP key update; CHAP
- Standards/Approvals/Certifications
- IS 2000 (CDMA 1xRTT)
- IS 637A (SMS)
- IS 683A (Service Provisioning)
- IS 707A (data)
- IS 856A /866 (EV-DO) Rev. A/0
- IEEE 1725
- FCC
- Industry Canada
- Wi-Fi Alliance
- CDG (stages 1, 2, 3)

### Patents

- 5,129,098
- 6,829,481
- 7,319,715
- 7,392,039
- 7,574,737

### Software and Applications

- MobiLink 3 Connection Manager
- Built-in address book
- SMS client

### Standard Package Contents

- MiFi 2200
- Quick Start Guide
- USB cable
- Li-ion battery
- Travel charger
- Carry pouch

Intelligent Mobile Hotspot

## product specifications

# MiFi 2200

- Access the Internet over Mobile Broadband with the all-new MiFi Intelligent Mobile Hotspot!
- Connect up to five Wi-Fi enabled devices at one time within a 30-foot radius
- Internal antenna system
- GPS capable
- Removable Lithium-Ion battery
- Auto-install MobiLink 3 connection manager for use as a tethered modem

# Freedom. My way.<sup>TM</sup>

## Intelligent Mobile Hotspot

Novatel Wireless introduces the MiFi 2200 Intelligent Mobile Hotspot. Connect wirelessly over Wi-Fi or with the USB cable as a tethered modem and access Mobile Broadband to browse the internet, access email, run business applications and more from a notebook or other Wi-Fi compatible devices.

## Universal, Anytime, Anything Access

The battery-powered MiFi 2200 acts as your own personal Wi-Fi cloud of connectivity that can be shared with up to five multiple Wi-Fi devices at one time. You don't "hook it" to anything, just power-on and go. Now, your notebook, tablet computer, PDA, camera, and mobile game device and other Wi-Fi enabled consumer devices stay connected too.

Typical battery usage time is 4 hours in Wi-Fi mode with one Wi-Fi client.

## Compact Size

MiFi is amazingly compact, slightly larger than a few stacked credit cards, and weighs only 59 grams.

## Security on the Go

No need to worry about any passerby catching a free ride on your cloud - security is built in and is also customizable.

## Save Time and Money

Stop hunting and paying for a hotspot! Consolidate bills for high-speed Internet with a MiFi 2200 device. Ditch your home wired connection and take MiFi 2200 with you. With the MiFi 2200, you always have a hotspot\*. On the go, in the car, and at home. Now, all your devices can leverage high-speed Internet, no need for multiple modems or accounts. Use Skype® or Google Voice® with voice over IP and browse the Internet at the same time.

\* Must be in CDMA EVDO Rev A coverage area. Account with a network operator required.
